TO BOOST STAMP SALES ON AUG. 28

Town Band Will Provide Fine Program for Purchasers of War Savings Stamps; Generous Co-operation by Theatre Owner and Local Assisting Artists

FREE BIG DANCE AT AUDITORIUM TO FOLLOW SHOW

Wednesday, August 28th—That's the day! On that date citizens of Wainwright will be offered an opportunity to do their part in Canada's war effort, to make a very profitable investment and, at the same time, enjoy a fine band concert to be provided by the Wainwright Town Band under the baton of Bandmaster J. Alderman.

This unique event, as you may have already guessed, is designed to boost the sales of War Savings Stamps in this area, and marks the first concerted (no pun!) effort directed to this end since the stamps were first put on the market some weeks ago. The project first began to take form with a generous offer from the bandmaster and musicians of Wainwright Town Band to provide entertainment for such a program providing it could be arranged. As was to be expected, Mr. William Bruner was right there to offer the free use of his theatre facilities for any project designed to boost Canada's war effort.

After that, it was easy. Local artists offered their services without remuneration to provide the necessary variety to the program and, of course, the Star was pleased to give publicity to the affair. So the final arrangements are as follows: The band, together with the aforementioned local artists, will provide a complete and varied musical program, free of charge, in the Elks Theatre on Wednesday evening, August 28.

Mr. W. Huntingford, whose ability and activity in handling theatrical and other productions of this nature is well-known to all, has undertaken the management of this fine affair, and Mr. C. T. Lally will act as treasurer. Now, the treasurer of a free concert may sound more like a position than a job, but there's more

to it than that. For the sum of 50c Mr. Lally will supply a folder bearing two of the War Savings Stamps which are such powerful weapons for the defeat of Hitler. These folders with the stamps attached are the only admission ticket which will be required or allowed. However, the concert is still free in every sense of the word, since the stamps provide a gift-edge investment and a fine patriotic gesture as well. This event is, as far as we can learn, unique in the history of Wainwright and the surrounding district, providing fine entertainment, a first-class investment and a very real boost for Canada's war effort.

After everyone has had a good time at the show, the big crowd will then jog along to the big dance at the S.S. auditorium, the use of which has been granted free for the project by the Board of the School, and at which the Parkhurst orchestra will also donate their valuable services again free. This will mean that each holder of a War Stamp folder with the two stamps from the theatre, will be asked to buy just one more at the auditorium for 50c only and enjoy the dance which will top off the whole affair.

Remember, too, that everyone connected with this affair is donating their services. They are doing their part; will you do yours?

Farm Storage Will Be Most Important This Year

It is feared that many Alberta farmers do not fully realize the seriousness of the congestion now existing in grain storage. It is a certainty that before harvest proceeds very far this coming autumn what elevator space is left will be completely plugged. Every farmer should make plans to provide all the farm storage he possibly can.

ALL WOMEN ADVISED RE NATIONAL REGISTRATION

War has always made a heavy demand on the services of the womanhood of the nation. Totalitarian war makes a still greater demand. Modern war involves far more than the fighting forces—it goes beyond the lines. It involves home defence. It calls for the strengthening of the moral and spiritual forces of the nation, and also an increase not only in the production of war materials but an increase in general production as well.

We not only have to produce more so far as war materials are concerned, but we must produce products for export because it is necessary that many war materials be purchased abroad, and the nation must accumulate the foreign exchange necessary for these purchases.

In war conditions, the strength of the army in the field must be maintained, but the strength of the army of workers at home must also be increased. It is, therefore, only natural that more and more women ought to be drawn into the army of production in order to strengthen the nation in this time of conflict.

The women of Canada can help by filling in the registration cards with care and by encouraging others to do the same. National registration day should produce a clear record of the womanpower of the nation.

SUPPLEMENTARY ESTIMATES TABLED AT OTTAWA

Ottawa.—Supplementary estimates totalling \$3,197,498 were tabled in the House of Commons today by Finance Minister Isley. Passage of the unemployment insurance act accounts for most of the money required, as an appropriation of \$2,000,000 is provided to meet administration costs up to March 31, 1941, the end of the fiscal year.

The estimates propose an annuity of \$2,500 a year for Mrs. Norman Rogers, widow of the late Minister of National Defence, who was killed in an airplane crash in June.

Increases in the income tax and the application of the national defence tax for additional appropriations for the income tax branch. Larger staffs will be required to handle the greatly increased number of individual taxpayers.

This charming conductor of a London bus is one of the thousands of British women who have taken over men's jobs to release the men for army service.

Commons Rules Against Alberta Provincial Bank

Ottawa.—The Commons committee on banking and commerce today recommended to the house that the bill to incorporate the Alberta provincial bank be thrown out. The action followed two weeks' study by the committee, concluding with an opinion by the justice department that the bill was ultra vires.

In its report the committee declared "it was the opinion that the subject matter of the bill was such that it ought not to be enacted."

Following the vote on the adoption of the report with Norman

Succeeds Ironside

Lieut.-Gen. Sir Alan Brooke, who fought with the B.E.F. in France, and who has now been named commander-in-chief of the British home forces, succeeding Gen. Sir Edmund Ironside.

Jacques (N.D., Wetaskiwin) the only one voting against adoption, John Blackmore, New Democracy leader, said his group was prepared to go into the whole matter at any length. He realized that there was not time before the close of the session.

At a previous sitting, F. P. Varcoe, of the justice department, had been asked to give the committee a considered opinion on the constitutional-ity of the bill.

King George inspects the Irish Guards during their drill on an English golf course. This particular Guard is doing some fancy shadow boxing with a bayonet.

BUY WAR SAVINGS CERTIFICATES

"The Lion Has Wings" Wins Official Approval

The approved statement by the late Hon. Norman McLaughlin, former Minister of National Defence, with regard to the morale value of picture education, says:

Ottawa, Ont., November 23, 1939

"With Canada's war effort so deeply concerned with the strengthening of the Allied air forces, this film, 'The Lion Has Wings' is a record, for all Canadians to see, of what the mastery of the air means to the Allied cause."

"One of Canada's most spectacular contributions to the common cause will be the Empire Training Scheme by which, from aerodromes across the country, pilots from the Dominions will be trained for service overseas. Here, in 'The Lion Has Wings' is dramatically recorded the story of what it means in organization, skill and human courage. Indeed, the film gives to civilians an interesting insight into the intricate new military art of aerial warfare."

"I have been much impressed by the film, and not least, by the reconstruction of the raid on the pocket battleships at Kiel, which is one of the highlights of this picture. The motion picture is performing a valuable national service in bringing us while the news of it is still fresh in our memory, a record of the efficiency and daring with which this Allied war effort was planned and executed."

Decennial Census To Be Taken June 2nd, 1941

Ottawa.—A national census will be taken June 2, 1941, Trade Minister Macdonald announced in a press statement today. It will be the eighth decennial tabulation of Canadians.

Special attention will be paid to obtaining statistics on basic industries of the country.

Draft forms designed to obtain the fullest and most accurate information on agriculture went out today to leading authorities for their approval.

Information will be sought covering the whole field of the industry. Abandoned or idle farms will be canvassed as well as agricultural production on plots which do not come within the definition of "farm."

A separate schedule will be used for each farm listing products, whether fruit and vegetables are produced for sale, and general details concerning operations.

Star's Subscription Contest Ends Today

Going, going.—With only one more chance to decide the winner of The Star's big contest, which ends today (Wednesday) at 6 p.m., the contestants are going "all out" to capture the coveted C.C.M. Special Balloon Roadster, and next week will see some lucky boy (or girl) proudly wheeling around town on this fine bike, to the envy of all the youngsters who didn't quite qualify. Below we publish the standings of the contestants as at Saturday morning last, but we have a feeling that some of the youngsters whose names are in the lower brackets now will be placing forth a determined effort to break into the prize money before 6 p.m. today (Wednesday).

As will be seen from the table below, Amos Church has really improved his position during the last week, bringing his total points up to 3,500, while Parker Currie also forged ahead to a total of 1,950. William Carrell and Harvey Hamilton are having a close race for the \$10 prize in the boys' section, with only 200 points separating them, while the only other boy contestant, Robert Street, is far behind with a total of 450 points. One of the best showings of recent weeks has been that of Connie Wear, who now has a total of 1,000 points to lead the girls' section. Josephine Amritsar with 750 and Evelina Hasha with 350 are the only two others who appear to be serious

contenders for the girls' prize money. Elsie Wear with 250 and Georgina Gardiner with 100 being far behind the leaders. However, it is not yet too late for them to improve their standing and to secure, if not one of the prizes, at least a sizeable amount of money as commission on the subscriptions they bring in.

Next Saturday morning, at The Star office at 10 o'clock, the prizes will be presented to the lucky winners, so we don't think they will require much urging to be on hand at that time. Remember: The Star office, Saturday morning, August 10th, at 10 o'clock.

Meanwhile, everyone is urged to put forth one last effort before the clock strikes 6 p.m. today (Wednesday). Bring in your subscriptions, or drop them through the letterbox on the door at The Star office—as long as they are in before 6 o'clock they will qualify for the contest. It's your last chance, boys and girls, so let's go!

Standing	Points
Amos Church	3,500
Parker Currie	1,900
William Carrell	1,000
Connie Wear	1,000
Harvey Hamilton	850
Josephine Amritsar	750
Robert Street	450
Evelina Hasha	350
Elsie Wear	250
Georgina Gardiner	100

Bank Of Montreal Sees Crop Improvement

According to the Bank of Montreal crop report, cool weather and timely rains in the Prairie Provinces have checked deterioration and crops on the whole are progressing favorably. Crop conditions in Saskatchewan are variable, due to the uneven distribution of moisture, but summer fallow fields are generally satisfactory. The crop prospects in Alberta and Manitoba continue favorable. Wheat is maturing rapidly, but harvesting will not be general in Manitoba and Saskatchewan for about two weeks. Grasshoppers are numerous in some districts although little further damage is reported. Hail losses have occurred at scattered points. Pastures are in good condition.

In Alberta, prospects continue satisfactory, although warm, dry weather in central and northern areas is not ideal. In the extreme south recent rains have improved the outlook, but indications are for light yields. Wheat is headed and coarse grains well advanced. Central districts report some severe hail damage. Sugar beet crops show good growth.

Crops over most of Saskatchewan have benefited from cool weather and light to moderate rains; late-sown grains particularly have improved. While yields will be light in some areas, summer fallow fields are generally satisfactory. Some cutting of coarse grains and early wheat has begun, but harvesting will not be general for about two weeks. Grass-

hoppers are flying and are numerous in some areas, although little damage is being caused at the present time.

Manitoba crops are progressing favorably. Timely rains have fallen over most districts and will be beneficial for the filling and maturing of the grain. While some cutting has been done, harvesting will not be general for a week or ten days. Grasshoppers are becoming active and some damage is reported. Beet webworms have caused severe damage to sugar beets and gardens, but control measures are being taken.

MARRIED MEN NOT CALLED UP BEFORE 1941

It is not expected married men will be called up for military training under the National Resources Mobilization Act before the end of next year, according to information from Ottawa.

Speaking in the House of Commons this week War Services Minister Gardiner said single men between the ages of 21 and 35 would probably meet the requirements of the Department of National Defence in the first year. Departmental sources confirmed a previous opinion that married men would not be called in the first year.

Mr. Gardiner said available estimates in advance of registration indicated there were 1,184,000 single men in Canada between the ages of 18 and 44. Of this group a considerable number are already in the army, the air force or the navy, some will prove physically unfit and the calls by age classes will start with 21 years.

As it is estimated training facilities can be provided for some 200,000 in the first year, it is possible the authorities may not need to call married men until well along in 1942.

The trend of the war, of course, may alter things, should larger numbers enter the Canadian Active Service Force owing to the development of hostilities on the land training program might be stepped up.

IN MEMORIAM

In loving memory of Chas. G. Istead, who passed away August 6th, 1924. Ever remembered.

Sweet memories will linger forever. Time cannot change them; 'tis true. Years still to come will not sever. Our loving remembrance of you.

THE FAMILY.

IN MEMORIAM

In Loving Memory of Mrs. Edith Rosenthal, who died August 6th, 1939, at Chicago, Ill. Ever remembered.

The Canadian War Effort

A weekly review of the developments along the home front.

THE NEW CANADIAN

TRAINING POLICY

Following is a digest of the new military training plan as explained in the House of Commons on Monday by the Department of National Defence:

Present Army Establishment.

1. The C.A.S.F., comprising as at today 123,572 men from 19 to 45 years of age, who are serving at home and abroad. Pay: \$1.30 per day plus allowances.

2. The Veterans' Home Guard companies, comprising veterans of the Great War, 50 years and under, who are doing full-time service defending key points. There are authorized 22

companies of 250 men each. Pay is the same as C.A.S.F.

3. The Non-Permanent Active Militia (N.P.A.M.) comprising men 18 to 45 years of age, who have volunteered for service in the militia and who do part time training. Pay: \$1.20 per day, without allowances. They are paid only for the time spent in training.

4. The Veterans' Home Guard Reserve, comprising war veterans of 50 years of age and under, who are doing part time training. Pay: Same as N.P.A.M.

The New Policy.

Voluntary recruiting for the N.P.A.M., as distinct from the C.A.S.F., will be suspended on August 15 for the time being. Provision will be made to bring into the militia the men who are to be called for training duty and service

in Canada under the National Resources Mobilization Act. The men thus recruited will be brought directly into the militia regiments throughout the country.

These men will be called for 30 days' training, beginning, it is expected, about October 1, 1940, in groups of approximately 30,000 men per month. Single men in the lower age categories will be called first. It is unlikely that married men will be called during the first year.

In one year, therefore, approximately 200,000 men will have received initial training. These 200,000 men are to be regarded as the vanguard of a mighty Canadian army which will be available to defend this country.

There are difficulties in withdrawing so many men from the normal life of the community even for the comparatively short period of training but difficulties cannot be allowed to obscure the goal to be reached. This is the beginning, not the end, of a policy. The plan has been worked out so that it can be speeded-up or slowed down as events require.

There are difficulties, also, in building quarters and manufacturing the equipment for this citizen army. Every effort is being made to guard against failure on either count.

One of the difficulties of the scheme is the shortage of competent instructors to train these men. Several thousand instructors will be needed. The problem has been foreseen and some schools have already been established. The instructors are being drawn from N.P.A.M. units and ex-service men.

This policy has been evolved to cause the minimum dislocation to industry. The rule will be that there can be no exemptions. Any postponements must be so arranged that everyone within the groups called who is physically fit must undergo training within a year. Physical fitness is defined as everyone classified by military medical standards as being C.1 or better.

No distinction of any kind will be made between the new recruits, thus drafted, and the rest of the militia, except that the men called under this plan will not be available for duty outside of Canada unless they volunteer for such service. It is important that from the outset these men be regarded as members of the Canadian army. As recruits they will pass directly into the militia regiments. Automatically they will become members of the Canadian militia in their own right. They will share its traditions and be the custodians of its honor.

Thirty Days' Training.

It may be thought that 30 days is too brief a period in which to train a man. It is a brief period. But the weight of opinion is that we must lay as broad and as deep a foundation as possible for the Canadian army. To withdraw 300,000 men from their work for more than 30 days over a year, might jeopardize production of essential war commodities. It is necessary to give the largest number of men elementary military training in the shortest possible time.

No Discrimination. It is imperative that no distinction be drawn between the men called for training and the other men in the Canadian militia. They are to be welcomed into the Canadian army and they have every right to feel that their country honors them for the

BOARD REDUCES COUNTRY STORAGE RATES

Winnipeg—E. B. Ramsay, chief commissioner of the Board of Grain Commissioners for Canada, announced here that grain storage rates for prairie country elevators and terminals at the lakehead have been reduced from 1-30 of a cent a bushel daily to 1-45 cent a day.

Mr. Ramsay said decision to reduce grain storage rates in Manitoba, Saskatchewan and Alberta and at the lakehead was reached following submissions to the Board by the Northwest Grain Dealers' Association, Saskatchewan Pool Elevators and Manitoba Pool Elevators, who also advanced a submission by the Alberta Pool Elevators.

HOW TO POISON POTATO BUGS

Colorado potato beetles, or potato bugs as they are often called, have resulted in serious injury to potato crops in the prairie provinces. Most of the damage is done by larvae (young bugs) eating the leaves and even the stems. This insect can be controlled by spraying or dusting with a stomach poison.

Calcium arsenate (arsenate of lime), or paris green may be used as a dust or a spray for this purpose. When good spraying equipment is available, spraying is more economical than dusting for large fields.

For the average potato patch the watering-can will do a satisfactory job. In a two-gallon can of water place 4 heaping teaspoonsful of arsenate of lime or arsenate of lead with 3 heaping teaspoonsful of flour or 9 teaspoonsful of hydrated lime. Keep the mixture well stirred while sprinkling it on the plants. The four should be mixed in a thin paste with cold water before placing in the can or spray tank to avoid lumps.

For large quantities, use 2 pounds of either arsenate in 40 gallons of water with 1 pound of flour or 3 pounds of hydrated lime. If paris green is to be employed, a quarter of a pound is used with 20 gallons of water with half a pound of flour or 1 1/2 pounds of hydrated lime.

For dusting, mix 1 part of either arsenate of lime, arsenate of lead, or paris green with 15 parts (by volume) of lime or cheap flour. This is mixed thoroughly, placed in a cheese cloth bag and shaken over the plants during calm weather in early morning or evening when the leaves are moist with dew.

Plants should be examined carefully and the first treatment given as soon as injury is evident. The crop should be re-examined at regular intervals as additional treatments may be necessary. These substances are active poisons and must be handled carefully and stored where animals or children cannot reach them.

CARE OF BARNYARD MANURE

As manure is so valuable for maintaining crop production and as losses in its plant food can take place so readily, its care and preservation cannot be emphasized too strongly. A number of important points might be suggested which will lead to considerable saving of the valuable fertilizing nutrients in manure.

First of all, says J. Mooney, Field Husbandry Division, Experimental

'Let's see now—one for each person, and one for the pot.'

Here is one of the most dramatic photographs ever made of a rescue "at sea". The photograph was snapped from the U.S. coast guard new life-saving amphibian plane as it picked up two fishermen whose craft was wrecked in the rough

Straits of Mackinac. Five minutes after this photograph was made their boat—which can be seen in the background—went to the bottom. The new plane is being tried out as an experiment in aiding Great Lakes shipping and

yachting, and proved its value in this rescue. The shipwreck victims, who can be seen swimming towards the plane, are Joseph Schley, Jr., and Ernest Anderson, both of Cheboygan, Michigan.

most water courses draining inhabited areas are thus contaminated. No single measure in reducing typhoid fever on a large scale approaches the effect of substituting a safe for a polluted water supply. Milk-borne typhoid is always due to the use of raw milk and there is no other single measure which acts as so sure a preventive as pasteurization when properly carried out. There is no recorded instance of the occurrence of typhoid coming from properly pasteurized milk. The milk is usually contaminated on the farm from a case or carrier of the germ. Fresh milk products, such as cream, butter, ice cream, buttermilk or fresh cheese may contain the germ and spread the disease.

The common house fly lives, breeds and feeds in faecal matter and is a common spreader of typhoid. The infection may come from soiled linen, blankets and other objects. It may be gained from close association with persons ill of the disease. Typhoid vaccine is a useful preventive. The soldiers in the last war were successfully vaccinated against typhoid. Very few cases were found amongst them. The vaccine is a valuable measure of protection to vacationers, travellers and others who may be exposed to the disease.

CHRONIC UNDULANT FEVER

An unmarried woman 30 years of age has for 3 years complained of daily fever running from 99 to 100, is herself to do her household work. She feels dependent and has thoughts of suicide. Her skin is very sensitive. She has mental disturbances and a change in personality. Her acquaintances and friends agree that "she is not the woman she was".

Tuberculosis, neurasthenia and various other affections have been suspected. A skin test gave no positive results. Finally a recent blood test was positive for undulant fever.

Undulant fever is commonly acquired from drinking the raw milk of cows affected with the disease. This disorder is fairly common among Canadian herds. In some cases workers in laboratories become infected and in most cases recovery is slow. In Malta the disease is one of goats and is called Malta fever.

In cases of continued low fever for

which no satisfactory cause can be found, the physician should think of chronic undulant fever. The modern treatment for this disorder is the use of Brucella vaccines, and the production of artificial fever by means of injections of typhoid-para-typhoid vaccine or preferably by physical means. There is little evidence that the use of sulfanilamide produces any last effect.

Under the care of a competent physician and the use of specific measures such as those recited, most patients recover in the course of a few weeks or months.

In the case referred to above, improvement under careful treatment for six months is showing effect, after a proper diagnosis was made.

The only reliable preventive is the use of pasteurized milk.

It is estimated that Texas, at one time, had prairie dog towns covering a total area of 90,000 square miles.

MAY EASE RULES IN REGISTRATION

Ottawa—Consideration is being given by the national war services department to easing regulations for national registration so persons registering may fill out replies to questions at their leisure and bring them to the registry office where they would attest to their accuracy.

This information came from a source closely connected with registration arrangements.

Under existing regulation all replies to questions, 15 for men and 19 for women, must be filed in the presence of a registration official. It has been suggested the possibility of congestion at the registry office would be lessened if questions could be answered in advance.

It is proposed to keep registration offices open from 8.00 a.m. to 10.00 p.m. on each of the three days when registration is being conducted. Aug. 19 has been suggested as a likely day when registration will begin.

WAINWRIGHT, WEDNESDAY, AUGUST 7th, 1940

KEEP YOUR CHIN UP!

Don't give way to despair, no matter how dark the situation may be. Be of good courage, ready to die if need be to defend the Empire, and as is often heard here and everywhere: "Keep your chin up!"

"THE LION HAS WINGS"

Most of this war's lessons have still to be learned, ten months after the outbreak of hostilities we in Canada, actually have felt nothing of the backwash of the early action. Far removed from the battle theatre, we have not even had to face the inconveniences which defense precautions imposed on Britain and France. It is, but not of it, there have been only Nazi atrocities to dramatize and impress on us the horrible potentialities for destruction of those forces the military strategists still hold on leash.

"The Lion Has Wings", the British motion picture which had its Canadian premiere in Toronto, comes to Canada at the right moment. It is a picture which all Canada should see. It tells the story, without any theatrical garnishing, of why we fight and how we fight. Through a contrast of scenes, from the everyday life of Britain at peace and the regimented exaltation of a Nazi Germany committed to the achievement of world domination, "The Lion Has Wings" pictures the tremendous gap between democracy and dictatorship. By the contrast, every man is impelled to a new understanding of what freedom means for him.

The plot is war, the new and even now unimagined war of the machine. The story is the story of the transformation of a nation from the peaceful pursuit of happiness to defense against death from the sky. A straightforward narrative unencumbered by maudlin sentimentalism and rancorous flag-waving, it shows in elaborate detail Britain's efforts to achieve the supremacy in the air which she holds on the sea. Every step of these defense preparations, from factory to the actual battle stations, is revealed to the public in a way that breathes the spirit in which

the British people have responded to the challenge.

The picture is a real-life demonstration of how well Britain is prepared. It takes the audience aloft and into actual combat, to see the bombing of the Kiel Canal—Britain's first successful blow at the enemy—by the men who actually carried out that operation. Beginning in the room from which the nation's defense against the Nazi raiders is directed, the picture reproduces in vivid detail every means of air defense—the fighter squadrons, the anti-aircraft batteries and the balloon barrage.

The film is propaganda, yes. It is honest factual propaganda, which every man, woman and child in Canada ought to see. It not only eliminates any doubts there may be as to Britain's preparedness, but in its vivid, grim honesty it gives the least imaginative person a new and fuller appreciation of the effort which war now demands. "The Lion Has Wings" is civilian Canada's opportunity to know war in a way that will open our eyes to the full price of victory, and to learn what is expected of us.

ABOUT PEOPLE

Mrs. Howard Pilgrim was a city visitor last week and for a few days.

Renew your subscription to The Star and get a War Savings Stamp FREE. A stamp is donated with every year paid for.

Mrs. J. Collette left last week and with her family to join her husband at the front.

Mr. and Mrs. Bill Fraser moved this week into the former Tory house on Main Street north.

After her annual vacation, Miss A. Taylor is now again on duty at the post office.

Owing to the serious illness of his mother there, Mr. Fred John was a visitor to Edmonton on Sunday last.

During the week the Wainwright Motors unloaded and sold another Ford tractor with the Ferguson system attached.

Mrs. R. T. Wright was over from Hardisty to visit her daughter, Elsie, on Tuesday.

Cona, F. A. Miller, R.C.M.P., arrived last week to take over from Sgt. Collette, and Mrs. Miller and daughter arrived from Viking at the week end. They are now in residence at the detachment headquarters.

Her Majesty Queen Elizabeth attained her 40th birthday on Sunday last but owing to the war no celebration was held this year.

Watch for dates of A BIG NIGHT at the Elite Theatre on Wednesday, August 28th. Something REAL BIG is being arranged for that evening, so mark up the date right now!

Rev. and Mrs. Allan Martin from Saskatoon are visiting Mrs. Martin's sister, Mrs. C. H. Morrison, at the United Church manse at Edgerton for a short holiday.

PENALTIES FOR OFFENCES AGAINST REGISTRATION ACT

Ottawa.—It is an offence to counsel or advise any person to refuse to register during the national registration or to refuse to comply with any of the provisions of the regulations made for registration. The penalty provided for giving such counsel or advice is the same as that for refusing to register—a fine not exceeding \$200 or imprisonment for not more than three months or both.

The regulations have the force of law as they are made under the authority of an act of parliament.

Not a single lynching was reported throughout the United States in the first six months of 1940. Only in one year previously has the first six months passed without a lynching.

CALL FOR STEPS TO CHECK ACCIDENTS

Need of police authorities checking up on careless and reckless drivers has been emphasized by the Alberta Motor Association.

This matter was discussed at a recent meeting of directors of the A.M.A. when it was decided to again call upon the provincial authorities to check over and see operating on the highways.

During the discussion it was stated that at Calgary seven accidents daily had been reported, indicating there was need to enforce greater safety measures.

While stringent action is taken by the provincial authorities against persons found to be driving a car while intoxicated, it appears that more rigorous steps are required.

It is a fact that some 500 persons in this province are legally barred from driving a car, due to convictions or the inability to obtain protective motor car insurance.

Nevertheless, it is believed that with a tightening up of inspections of old cars, much can be done to reduce the accident toll.

Recently it was revealed that in a fatal accident that occurred in an Alberta city in recent weeks, the car was in a defective condition, having poor brakes and a dirty windshield.

MEASUREMENT OF THRESHED GRAIN

The problem of providing storage for this year's crop raises the question of the space required for any given quantity of threshed grain.

A bushel of threshed grain occupies 1 1/4 cubic feet. To determine the amount of grain which any building will hold, and the length, width and height in feet. Next multiply the length by the width by the height, which gives the number of cubic feet. Multiply this figure by decimal eight (.8) and the result is the number of bushels which may be placed in the bin. Thus a bin 12 feet long, 10 feet wide and 8 feet high is 12x10x8 or 960 cubic feet. 960 cubic feet will hold 960x.8 bushels, or 768 bushels.

If it is necessary to build a granary to hold a given quantity of grain the calculations are reversed. Since a bushel of grain occupies 1 1/4 cubic feet, 1,000 bushels would occupy 1,250 cubic feet and so on. If one divides the number of cubic feet occupied by a given quantity of grain by the height of the bin to be built the bin, the floor area is obtained. Thus 1,000 bushels in a bin 8 feet high would need a floor area of about 156 square feet, or a floor about 12x13 feet in size.

CHARLES LAUGHTON IN NEW KIND OF ROLE

As with most Charles Laughton films, the immediate appeal of this third Mayflower production, "Jamaica Inn", inevitably hangs upon the drawing power of its star. At once can be recorded that Laughton has never given a better performance and that the patrons will find not a totally different and compelling characterization added to the long list of Laughton portraits.

The novel from which it is adapted has a sordid, rather than to its credit, indicative of a foundation already there among the reading public. On its own merit, this Monday and Tuesday picture, with its swash-buckling air of ruthless piracy, its brooding atmosphere of dark devilry against a picturesque coastal background, and its brilliant Regency costuming, its storms and its wrecks, has more than one element of attractive melodramatic entertainment.

Laughton's portrayal is a fascinating mixture of the graceful and the grotesque, of the amiable, murderous and sensual, of a paunchy ogre of impeccable manners, crazy for comfort and ease and completely devoid of scruples. Maureen O'Hara, Laughton's "discovery", is beautiful and has a beautiful voice, but her immaturely stands rather in relief against the finished case of Marie Ney as the tragic wife of the innkeeper, handled on burly lines by Leslie Banks.

CANADA REGARDED AS No. 1 GRANARY FOR U.K.

London.—History's largest wheat purchase was announced on Friday of last week by the ministry of food, which said it had agreed to purchase 100,000,000 bushels of Canadian wheat.

An official announcement said: "The ministry of food has entered into an agreement with the Canadian wheat board to purchase during this cereal year, July 1940 to 1941, a further 100,000,000 bushels of Canadian wheat."

This is the largest purchase ever recorded, the statement added. The huge purchase was said to represent a big proportion of a year's wheat consumption here.

It indicated that Canada is regarded as Britain's No. 1 granary. It is understood the ministry has arranged for some wheat from Australia, although it is not like Canada's famous hard kind.

Nothing could be learned of the price paid for the newest purchase or of the quantity of Canada wheat previously purchased.

SEABEAM RAIN REPORT SHOWS BIG IMPROVEMENT

Compiled from the records of 225 Governmental and private rain gauges.

Moisture conditions have shown a marked increase in Western Canada during the past week. The total moisture condition for the three Prairie Provinces, weighted for wheat acreage, today is 89 per cent of normal, as compared with 75 per cent, last week, and 106 per cent at this time a year ago.

This total condition includes the precipitation which occurred last fall during the months of August, September and October, and the rains which fell between April and July 29th.

Alberta has improved by approximately 4 per cent during the week, owing to generous rains received in Crop Districts 1, 2, 3 and 4. The total moisture condition is now 83 per cent of normal, as compared with 75 per cent, last week and 115 per cent, a year ago.

Saskatchewan shows an improvement of 5 per cent, owing mainly to heavy rains which fell in Crop Districts 1, 2, 3, 4, 5, 6 and 8. The total moisture condition is now 83 per cent of normal, as compared with 75 per cent, last week and 115 per cent, a year ago.

Manitoba also shows an improvement of 8 per cent, which was brought about by good rains which fell in most Crop Districts. The total moisture condition is now 97 per cent of normal, as compared with 89 per cent, last week and 84 per cent a year ago.

RED CROSS NOW PREPARES FOR WINTER

With many summer days yet to come, the Canadian Red Cross Society is already thinking in terms of fall and winter, and women all over the country are urged to knit gloves, mittens, caps and helmets for men of all branches of the active services. These articles will be needed by the thousands. Mrs. Wallace Campbell, national chairman of the Women's War Work Committee, said yesterday: "In these days of warm weather, some might find it hard to concentrate on the need for woolen gloves and helmets, but the Canadian Red Cross must continue its policy of being prepared and fully equipped to meet any emergency."

The same all-service wool used for socks may be used for gloves, mittens, helmets and caps, Mrs. Campbell said. Instruction for all types of these articles are in the Red Cross Knitting Book and should be followed carefully.

"We must, of course, keep current with the year's developments," Mrs. Campbell said, "but the gloves and helmets must also claim a great deal of our attention. All through the months since war was declared, we have been able to meet every emergency at home and overseas for the simple reason that the women of Canada have been making the articles we need, rather than the things they themselves like to make."

CITIZENS MUST REGISTER ALL RIFLES, SHOTGUNS

Ottawa.—Every owner of a rifle or shotgun in Canada who has not registered them by September 15 will be liable to a fine not exceeding \$50 or imprisonment for a period not exceeding 30 days, or to both, according to an amendment to the Defence of Canada regulations published in the Canada Gazette last Friday.

The registration will be carried out by the Royal Canadian Mounted Police and certificates of registration will be issued to owners whose possession of such firearms is approved.

A GRAVE RESPONSIBILITY

Canada is big enough to care for many thousands of (refugee) children and her people are anxious to relieve the burdens of the Motherland and also assure these youngsters a haven of refuge from German bombs. The care of these children is one of the biggest jobs Canadians will be asked to undertake. On the surface it would appear to be very simple, but the undertaking is going to tax the ability of the best organizers available. Nothing can be left to chance.

Ottawa.—Since the evacuation of British children started between two and three months ago, 2,227 British children have been admitted to Canada for the duration of the war, according to a return tabled in answer to a question from H. R. Jackson (Con. Toronto-Rosedale).

In addition to this number 252 refugee children were admitted from September 1, 1939, to June 30, 1940. Mr. Jackson was informed the department of mines and resources did not consider evacuated British children as refugees.

In Cardiff, Wales, Mrs. Demondie Pauline Davies, 21, received a calling-up notice from the Army. Despite her willingness to join the armed forces, the authorities sent her home again. They had apparently been confused by the lady's first name.

BUSH CONSTRUCTION OF MORE ELEVATORS

Wainwright.—Construction of new elevators and annexes was being rushed all over the western Canada wheat belt as the new crop year opened yesterday.

The buildings, designed to provide storage for 4,000,000 bushels of grain more than can be handled by the grain storage space, will cost \$10,000,000, grain officials here estimated. They said more than 300 annexes each holding between 20,000 and 35,000 bushels, and at least 15 new elevators were being built.

Early indications were that every one of the 5,672 country elevators in western Canada would be licensed this year as compared with 5,607 last year.

In Saskatchewan, rural operators are unable to purchase a single bushel of grain yesterday as agents of the Canadian Wheat Board. Instead, delivery was being taken and storage tickets were being issued against it.

The Dial Review by Walter Davis

Have you noticed how short my holidays are and how long the rest get? Take this Dial man, for instance—seems like he stays away nearly all of the summer. However, we've all got something to be thankful for—a bit of news in this column for a change. I'm quite sure Dale wouldn't give you such facts as:

Martin Gabel, co-stars with Alice Frost in the "Big Sister" morning story series, could retire tomorrow if he chose. However, Martin declares that all the money in the world couldn't stop him from portraying the life of Dr. John Wayne every weekday morning and he's one of the very finest radio actors in the world. "Big Sister" is heard Monday through Friday at 8:30, mornings.

Connie Crowder, who is none other than Doris Cameron in "Bright Happiness" gets to the studios in time for final broadcast at 7:45 every weekday morning.

Bing Crosby, world-famous Dean of Thursday night Kraft Music Hall, doesn't let his broadcasts stand between him and his outside world. He now air time of the Kraft Music Hall Thursday nights, 6 to 7, seems to me to be a mighty fine change. Gives a person a chance to enjoy the show and get an early start to the Flickers. Holidays: The scene changes this week. Norma MacKenzie is back to Jasper National Park and Lodge—

For Private SALE!

HOME RANCH ON EDGE OF TOWN

Has nearly 4 acres of good land all in crop and garden. 6-roomed fully modern bungalow in Al condition, hot and cold water installed; good well on place; garage, pump-house and 7-stall barn.

Full information can be obtained from H. P. SCHLITZ, Beaver Lumber Co. Town.

HELP WANTED

Have you visualized this Canada of ours under the heel of a dictator with your entire mode of life changed? Imagine the complete loss of the freedom you enjoy. Here is your chance to do something about it!

Wanted immediately! Young men from 18 to 40 years of age to prepare themselves for the defence of Canada. Experience not essential.

Choose your own occupation and train with any of the following units in the Non-Permanent Active Militia:—

11th Alberta Dragoons (armored cars) Wainwright Company. 8th Field Battery R.C.A. 13th District Signals, W. T. Section signals. Edmonton Fusiliers (machine gun). 2nd Battalion Edmonton Regiment (Infantry).

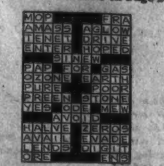

You do not have to give up your present position. Join now and train two or three hours a week in the evenings.

For full particulars apply at the Armistice or your nearest militia unit. Open evenings.

for his annual rest cure. Jim (and Mrs.) Allard continuity chief and lovely wife, hit the rails for Vancouver as this goes to press. Sheila Fox leaves in the same direction, minus typewriter, pen and ink, to spend a few weeks with members of her family. Gordon Shillaber, studio engineer, and his family are heading for Cooking Lake. Those doing the about-face and coming back to work are: Alta Magoun, Norman Edithell, Gladys McClean, all ready to start another year of this broadcasting business.

"Good Morning, Neighbour" goes back to the more suitable morning time this week. Announcer Stuart MacKay has been saying "Good Morning" in the afternoon for so long now that he fears conditions might reverse this week. Don't be surprised, Good Homebakers, if you tune in any morning at ten and hear "Good Afternoon". Screwy, isn't it? From now on, this feature takes over the 10:30 to 10:50 time formerly occupied by the Happy Gang.

AMONG THE OLD-TIMERS

TEN YEARS AGO

Mr. H. Coles is in town from Calgary installing one of the largest water softening plants (outside of the city) at the Power Plant. Wainwright's big annual fair attracted a real record entry list. A great deal of enthusiasm was shown in all the departments. Midway shows and grandstand performances added to the attractions.

The Senator Gas and Oil Company, situated on the McIntee farm, is now working three shifts and making good headway on the well.

Mrs. W. Crowe left at the week end for the coast in hopes of bettering her health.

Supt. Toole of the U.G.G., rented the McKay house on Seventh avenue and is now making his headquarters in Wainwright.

Mr. O. Murray, who taught school at Gerald for the past seven years, has been taken on the staff of the public school and has moved his family into town to reside.

EDGERTON

Once again the annual sports day is past history, and from several sources we learn that it was quite a successful day, in spite of the fact that it was a postponed affair. For divers reasons we were unable to put in an appearance until quite late, so as nobody could be absolutely certain of any of the game scores, we cannot quote same for you. All we can be definite about is the packed theatre and the merry throng at the dance after.

Mr. and Mrs. Don Pawsey drove to Edmonton Wednesday last, going via Vermilion in order to pick up daughter Ruth, whose new duties at the Edmonton General Hospital commenced on Monday of this week. They all spent a few days together in the city and Mr. and Mrs. Pawsey returned Sunday afternoon.

We regret to state that two of the carpenters engaged on the new Federal Elevator were injured last week. Accurate details are not to hand at time of writing.

Mrs. Geo. Sawyer is home again from an Edmonton hospital, where she went for an operation on varicose veins. Happily for her, it was decided that a series of treatments administered by Dr. Aylesworth will, in all probability, alleviate and eventually effect a cure for the trouble. We certainly hope this will prove correct.

It is with very real regret that we learn of the impending departure of R. E. Boston, Man., of our very popular bank manager and his wife. Mr. and Mrs. Davis have been in our midst for five years and their charming personalities and ever-gracious hospitality have made them a host of close friends, who cannot help feeling a sense of great loss at their departure.

Mrs. Will Challenger, daughter Irene (Mrs. H. Venables) and her family, were driven back to Saskatoon Saturday last by Ralph. Unfortunately, their holiday at the old home was marred by illness. First Irene, then one of her children, contracted mumps, which of necessity prevented considerable visiting which had been planned for them.

It is understood that examination results are beginning to trickle through, and, as is usually the case, a few are excellent, some are good, others fair, whilst one or two are, well, in vulgar parlance, "not so hot". Our sympathies are all with the latter minority for it brings back memories of our own school days—yes, we were that sort of a pupil, regrettable, but oh! how true.

Sunday's brisk breezes were just exactly right for P. S. Pawsey's sail boat and he generously gave great pleasure to many campers and the throng of Sunday visitors to Clear Lake. We are inclined to think Sid missed his vocation when we consider the masterly manner with which he handled his craft.

Born—To Mr. and Mrs. E. W. Taylor, of Hope Valley district, at the Bullymore nursing home on July 29, a daughter.

HEATH

Mr. and Mrs. McLeod motored to Ranfurly over the week end to visit with their daughter, Mrs. Bauer, and brought back their granddaughter, Jessie for a visit here.

Irene Carr, of Three Hills, was here for the B.S.M. convention and stayed with her grand parents, Mr. and Mrs. L. Davis.

The girls' camp from Wainwright, under the leadership of Mrs. Greer, occupied the Mitchell cottage.

Now that the elevators are closed the men and their families are on holiday. The McLeods have motored to the coast, the L'Hercules have gone to Edmonton and through the Columbia highway, while Bill Spornitz is enjoying his favorite occupation—fishing.

Jean Rutherford is spending a few weeks with Mrs. Morton Herbert.

THREE DAYS

FIFTEEN YEARS AGO

Mr. and Mrs. J. Johnson left on Tuesday for their new home in Montana, Sask., where Joe has received a grain-buying position.

Mrs. O. Lewis was taken to Edmonton last week for special medical treatment for an old ailment.

Mr. Earl Boyd has moved his family into a house on Sixth avenue East.

Mr. Hollingshead, who is new principal of the school for the coming term, arrived in town last week with his wife and has rented the Merrick house on Fifth avenue.

The homes of Dr. Wallace and Mr. M. G. Cardell have received a coat of paint, greatly improving their appearance.

The Wainwright annual ball tournament was held on Friday, with a smaller entry list than was expected. The local team was successful in coming out in first place.

Mrs. F. Lepper was elected president of the new United Church Ladies' Aid, at a meeting in the church on Thursday. Other officers included: Mrs. Telford, vice president; Mrs. W. Knowles, secretary; and Mrs. A. Savers, treasurer.

Mr. and Mrs. Morrow have moved to the Buffalo Park boarding house at the farm, Mr. and Mrs. Felix having left for Cold Lake to reside.

Miss May Barrington and Mr. J. Stratton, both of Edgerton, were married in town on Saturday afternoon.

To undergo an immediate operation, Miss Alice Dupre was rushed to hospital on Saturday.

The worst hail storm the district has known swept through a large strip of territory early Monday evening. Altogether 20 farms were damaged.

Mrs. Mel Fraser underwent an operation in Edmonton during the past week.

Kay Rutherford celebrated a birthday on Friday.

Mr. and Mrs. Gordon, of Lashburn and Margaret Bartlett and Tom Scott, of Arltland, were visiting with friends in the district.

Bob Herbert is down from Meadow Lake and intends to stay over for the harvest.

Clear Lake was a popular place on Sunday. Some of the visitors were a large party from the Vermilion district and another party from north of Edgerton.

Relatives of Fred Smith and Otto Bishop have word of them landing in England.

Mrs. Bartlett, Jr., is a patient in the hospital, taking treatments.

WHITE CLOUD

Mrs. L. Hare, accompanied by Miss Clara Babb, spent a few days in Calgary, where she received medical attention.

We understand that Miss Helen Patter, who has held the position of teacher of the White Cloud school, has accepted a position at Stettler.

Miss Madeleine Blason returned on Thursday from an enjoyable trip with friends to Jasper, Banff and other points west.

Mr. and Mrs. Oliver Hutchinson and family, from south of town, visited with Mr. and Mrs. L. Wallace of this district last Sunday.

Sheepskin Flats

Miss Georgina Gardiner is staying with Mrs. Olsen, of Gilt Edge. While building on the home of Mr. V. Templeton, Mr. Kelly McLean had the misfortune to fall and hurt his leg.

Mr. and Mrs. W. Beckman and family, of Clear, visited over the week end with Mr. and Mrs. Roberts.

Mr. Jack Reed, of White Cloud, has the contract to redecorate our school. Mr. Alf Rasmussen has started to build himself a nice new house.

Jackie McLean is spending part of his holidays with his uncle, Mr. Cecil Hickox, of Gilt Edge.

GREENSHIELDS

During the past week "Bunny" Bond has been ill with measles but we are glad she is now up and about.

Mrs. Bud Hartley and Baby Gail of Montreal arrived last week to holiday with her mother, Mrs. McIntee.

We regret that Mr. Jack Hill is a hospital patient and hope his injuries will soon be cured.

Mr. Earl Carl has returned to this district for harvest after a visit at his home in Meadow Lake, Sask.

Early last week the Somick family left for Vancouver, where they will holiday a few weeks.

The C.C.F. constituency convention and picnic is again billed for Wednesday, August 7th. Rainy days have forced postponement twice during the last month.

Mr. Harold Merrick left hurriedly for Lacrosse, Wis., last Saturday to visit his mother, Mrs. J. S. Kaiser, who is seriously ill in hospital there.

The Misses Lillian Pfleger and Lillian Haywood, with Mr. Martin Danforth, drove to Edmonton Sunday for a few days holiday.

WHEN YOU REGISTER YOU GET THIS CERTIFICATE

National Registration is a plan to mobilize and direct our human resources—to assist Canada in the present crisis. When you register you will receive a certificate, convenient for card case or pocket—tangible evidence that you have complied with government regulations. It is not only a record for the Government, it is also for your protection. As such, you will be required to carry this card with you at all times. Its presentation can be demanded at any time by the proper authorities.

EVERYONE CAN HELP—To keep the cost of this registration at a minimum the Government is asking the co-operation of all public-minded citizens in the work of registration. You can help by getting in touch with your local registration officials and offering your services.

WHERE TO REGISTER

Registration offices are being set up by electoral districts in the same manner as in the last Dominion election. Registrants are required to register in the regular polling subdivisions of their own constituencies. But should a registrant be in some other province or district out of the regular polling subdivision on Registration Day, he or she may register at any registration office convenient, upon satisfactory explanation to the local deputy registrar.

Penalty for Non-Registration.—Failure to register will make any male or female, married or single, over the age of 16 years, liable to a fine not exceeding Two hundred dollars, or to imprisonment for a term not exceeding Three months, or to both such fine and imprisonment, and moreover to a further penalty not exceeding Ten dollars for each day, after the day upon which he should have registered, during which he shall continue to be unregistered.

Published under the authority of HON. JAMES G. GARDINER
Minister of National War Services

DOMINION OF CANADA
NATIONAL REGISTRATION REGULATIONS, 1940
REGISTRATION CERTIFICATE

This certificate must always be carried upon the person of the registrant.

Electoral District No. _____
Polling Division No. _____
(Name if any) _____

THIS IS TO CERTIFY THAT _____
residing at _____
was duly registered under the above-mentioned Regulations this _____ day of _____ 1940.
Deputy Registrar.

Registration Dates
August 19th 20th 21st

Hints for the Household

Conducted By Betty Barclay

Blackberry and Sour Cherry Jam
4 cups (3 lbs.) prepared fruit
7½ cups (3½ lbs.) sugar
½ bottle fruit pectin
To prepare fruit, stem and pit about 1½ pounds fully ripe cherries; crush thoroughly or grind. Grind about 1 quart fully ripe blackberries, or crush completely one layer at a time so that each berry is reduced to a pulp. Combine fruits.

Measure sugar and prepared fruit into large kettle, mix well and bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute. Remove from fire and stir in bottled fruit pectin. Then stir and simmer by turns for just 5 minutes to cool slightly, to prevent floating fruit. Pour quickly. Paraffin hot jam at once. Makes about 11 glasses (6 fluid ounces each).

Magic Fresh Fruit Ice Cream
(Automatic Refrigerator Method)
2-3 cup sweetened condensed milk
¼ cup water
1 cup fruit
¼ cup powdered sugar
1 cup whipping cream
Mix sweetened condensed milk and water. Add fruit, sweetened with sugar. (The average fruit requires about ¼ cup sugar). Chill. Whip cream to custard-like consistency. Fold into chilled mixture. Freeze in freezing unit of refrigerator until half frozen. Scrape from freezing tray. Beat until smooth but not melted. Replace in freezing unit until frozen. Serves 6.

*Use one of these fruits:
1 cup crushed fresh peaches
1 cup crushed strawberries
1 cup fresh or canned crushed pineapple
3 cup diced bananas, mashed with silver fork
Note: For Orange Ice Cream substitute ¼ cup orange juice for water and ¼ teaspoon grated orange rind for the fruit and omit the sugar.

Coffee Cocktails
3 cup decaffeinated coffee, drip or regular grind
4 cups water
4 heaping tablespoons whipped cream or ice cream
Cracked Ice

Make the coffee by any desired method. If percolated, "perk" slowly and gently about 18 minutes. Pour over cracked ice to cool. Put coffee and cream in cocktail shaker and shake well. Serve well chilled, in tall glasses. Serves 4. Remember when you make decaffeinated coffee by the pot or percolator method that a little extra brewing time is needed to bring out the full rich flavor. These coffee cocktails co-star happily with any assortment of cake or cookies. Everyone can enjoy extra helpings even late in the evening without worrying about sleeping problems.

A Flavorful Spaghetti Sauce
Have you often wished you were able to prepare a platter of spaghetti, macaroni or egg noodles the Italian way? Here's the secret. The sauce is the thing!

Here, also, is a sauce-making recipe that has been an open secret for centuries among those Italian families that "know their macaroni". The prime essentials are — quality macaroni products, good ingredients and a little patience.
Brown 5 finely chopped onions in ¼ cup of olive oil. Simmer.
Add 1 or 2 cloves garlic, chopped fine. Let simmer.
Add 1 lb. ground lean sirloin. Let simmer.
Add 1 can tomatoes (strained) and 1 small can tomato paste. Simmer.
Add 1 small can mushrooms (¼ pint, cut fine). Let all simmer.
Cooking of sauce should take 1½ hours in all, but the whole secret is — LET IT SIMMER!

Boil macaroni, spaghetti or egg noodles until tender. Drain. (Rinse over-cooked). Pour on sauce, sprinkle with grated Italian cheese and serve piping hot. Store surplus sauce in light jar in refrigerator for later use.

Pineapple Gem Doughnuts
¾ cup sifted all-purpose flour
4 teaspoons baking powder
1 teaspoon salt
½ teaspoon nutmeg
¼ teaspoon cinnamon
1 cup sugar
2 eggs, well beaten
2 tablespoons melted shortening
1 cup milk
1 1-lb. 14-oz. can Hawaiian pineapple gems

Sift dry ingredients. Gradually add sugar to eggs, beat until light, add shortening. Add sifted dry ingredients alternately with the milk. Add more flour if necessary to make dough stiff enough to handle. Roll out on floured board to about 1-3 inch thickness. Cut in rounds with a 2½-inch cutter. Place a well-drained gem in the centre of each round and roll dough around it. Fry in deep fat at 360° F. (or hot enough to brown a cube of bread in 60 seconds), until golden brown. Do not fry too rapidly or doughnuts will not be done in the centre. Drain on absorbent paper and roll in sugar. These are good either hot or cold, but are best served the day cooked.
Yield: about 42 doughnuts.

Anniversary Cake
3 cups sifted cake flour
5 teaspoons baking powder
1 teaspoon salt
¾ cup butter or other shortening
2 cups sugar
¾ cup milk

To break the monotony of their regular training while in camp, Canadian troops in England have regular sports days. These troops from the Dominion amuse themselves on bicycles during one of the sports days.

½ teaspoon vanilla
8 egg whites, stiffly beaten
Stiff four ounce, measure, add baking powder and salt, and sift together three times. Cream butter thoroughly add sugar gradually and cream together until light and fluffy. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla. Fold in egg whites quickly and thoroughly. Bake in three greased 9-inch layer pans in moderate oven (375° F.) 25 minutes, or until done. Spread White Mountain Cream between layers and on top and sides of cake. Decorate with bits of candied cherries and citron, if desired.

This cake may be turned into an angel food cake, lined with heavy paper, and again greased, and baked in a slow oven (325° F.) 1 hour and 30 minutes or until done. Or it may be baked 8½-inch tube pan which has been in two greased pans, 8x8x2 in moderate oven (375° F.) 25 minutes or until done.

White Mountain Cream
(Boiled Frosting)
3 cups sugar
1 teaspoon light corn syrup
1 1-3 cups boiling water
4 egg whites, stiffly beaten
2 teaspoons vanilla
½ teaspoon orange extract
Combine sugar, corn syrup and water. Bring quickly to a boil, stirring only until sugar is dissolved. Roll rapidly, without stirring, until a small amount of syrup forms a soft ball in cold water, or spins a long thread when dropped from tip of the spoon (240° F.). Pour syrup in fine stream over egg whites, beating constantly. Add flavoring. Continue beating with rotary beater 10 to 15 minutes, or until frosting is cool and of consistency to spread. Use wooden spoon when too stiff for beater.

Beauty for YOU
The Secrets of Good Looks by Barbara Lynn.

WARE THE SUN
We all like to get out into the sun. Sunshine provides nourishment for our bodies, as well as giving us that delightful tan so becoming in summertime.

Don't overdo it, though. Too much or too quick exposure to the sun's rays might easily harm your skin and scorch the life out of your hair. You will find that, no matter how cautiously you sun-bath, your skin is bound to lose some of its natural oil in the process. Here are two things you should do to help protect your skin against the sun's drying tendencies: (1) cleanse your skin with the gentle palmolive soap, which derives its goodness from those soothing oils, palm and olive; (2) use lots of Three-Purpose cream, and massage particularly around the eyes, mouth and throat.

Use a good suntan lotion to protect the skin against the dangerous actinic rays of the sun. And if, despite all your precautions, you find that you have a severe burn, rub in some tangel, which will soothe and relieve the burn quickly.

To protect your eyes, wear colored glasses, and do use a good pair. Cheap glasses may harm the eyes rather than protect them. Tinted green glasses are best for pale grey or blue eyes because light eyes are more sensitive to glare than dark ones. Write me for personal advice, enclosing four one-cent stamps for my booklet on Beauty Care. Address: Miss Barbara Lynn, Box 75, Station B, Montreal, Que.

Gorillas often attain a height of six feet and have a reach of eight feet.

experiment with considerable success last summer. He knew that salt was a weed-killer if applied in sufficient concentration, and that he could get plenty of it, but the problem was to kill the weed and spare the grass. He decided to try inserting a salt tablet into the heart of the dandelion, by stabbing the root with a knife, then pressing the tablet into the stub by foot. Experiment settled the question as to the right size of tablet to use, and it turned out that 90 or 100 grain sizes were best. The dandelions shrivelled up and die under this treatment, and a bare spot about the size of a quarter is produced. We are told that these spots rapidly heal up, and that after a couple of weeks the grass comes in and covers them.

The World of Wheat

H. G. L. Strang, Director, Research Department, Seale Grain Company, Ltd.

Dispatches from Ottawa inform us that owing to the lack of elevator space farmers will be required to store some grain for a time at least on their own farms. This means that elevator companies and farmers, too, will tend to "plug" or fill up their bins to the limit.

Almost every year, particularly since "combining" started, some farmers and some elevator companies have suffered severe losses because stored grain had become bin-rotted, which lowered the grade to "rejected" and sometimes to no grade at all; this bin-rotted grain being brought about because the grain was cut and threshed before it was thoroughly ripe, or because the grain contained unripened weed seeds.

The grain in "plugged" bins is difficult to examine or to "turn" and so it is more important than ever that grain for storage this year should be perfectly dry and free from weed seeds. It is evident, therefore, that farmers, particularly those who combine, should this year delay cutting their crops until the grain is thoroughly ripe. Special efforts, too, should be made to see to it that the screens of combines and of threshing machines are kept in proper working order so that weed seeds, which lower grade and take up valuable space, will be removed from the good grain.

Following factors have tended to raise price: It has been estimated that 1940 European wheat crops will be 340 million bushels—or about 30% less than last year. The acreage planted to soybeans in Manchuria is

Christopher Lant, one of the younger children evacuated from the United Kingdom, was in a happy mood when he reached Vancouver after travelling by Canadian Pacific steamship across the Atlantic and by Canadian Pacific train across Canada. He is shown here saying good-bye to his new found pal, Porter George Livingston, who took good care of him on his long train ride. Christopher had a grand time on the journey and is now safe from German raiders. He will live with friends on the West Coast.

NEWS & VIEWS OF TOWN AND DISTRICT

Mr. Tom Shaw has been in town for a couple of days on a visit to his family at Fabian, and looks very fit in his service uniform.

Mr. Elmer Dahl, who suffered a bad kick from a horse last week and spent several days in the hospital, has now returned home and is getting along nicely.

Many of the Wainwright folk spent a day or two at the Vermilion Fair last week, and were thrilled with the exhibition there and the Darling Death Dodgers show.

Mr. J. Hlodgett, of Dapp, Alta., is a visitor at Walter Gray's home this week.

Mr. J. E. Moore, of Coronation, was in town last week to visit his parents before leaving for Calgary to join the war services.

Mr. Murray Pawling was down from Edmonton to visit with his mother, Mrs. J. Pawling, for a few days.

Mrs. George Steel left last week to pay a visit to her son, Mason, and his family in the States for a holiday.

Greatly improved in appearance is the Mason schoolhouse which has now been stuccoed and re-decorated.

Mr. and Mrs. Fred Pawling arrived from Winnipeg last week end to holiday with Mrs. J. Pawling for a couple of weeks.

Will the public please note that during August Rev. Mr. Richard is away on holiday and Dr. Stevens is carrying on the work of the United and Presbyterian congregations.

Mr. Donald Folkins, formerly superintendent of farming operations at the National Park, left with Mrs. Folkins last week for Elk Island Park, where he has been appointed to a similar position.

Mr. Jack Reid, of Marsden, Sask., one of the pioneer farmers of this district, is here on a visit to his brothers, Bob and George.

Mr. and Mrs. Harry Ward have now returned from their vacation period spent at the coast.

Mr. and Mrs. G. L. Hudson arrived last week to spend a holiday as the guests of Mrs. W. Washburn at the latter's cottage at Clear Lake.

Mr. George Graham, who farmed at Fabian in the pioneer days, is visiting friends here before returning to his home at Vista, Calif.

Mr. Hugh Adams, of Fabian, is enjoying a visit from his two sisters who arrived last week from the States.

Mr. and Mrs. Dave Currie have now returned from their holiday spent at Muriel Lake. They report a pleasant time, and lots of good fishing while there.

***In practically all business houses today we see signs — "We sell for cash; please do not ask for credit." If your holdings, your personal belongings, your car should go up in flames today could you replace them? If not, these should be insured, so that the insurance company can furnish the cash you will need. Joe Welch, insurance of all kinds.

Bill Ribby, Jr. and Russell Forster were in town on Saturday to visit with relatives. They returned to Calgary on Monday.

Mrs. Chas. Clark, who has been visiting her parents, Mr. and Mrs. J. Welch for the past month with her young son, plans to return to her home at High River on Thursday next.

Mrs. Garwood Delaney, of Portland, Ore., is here with her two children to visit her parents, Mr. and Mrs. Fred Arthur, of Aumurdale.

Stan. Vallesau is busy these days distributing the coal to the various schools in this division, for which work he got the contract.

***Renew your subscription to The Star and get a War Savings Stamp FREE. A stamp is donated with every year paid for!

A souvenir of the war is being held by Mr. Reg Bryan of town in the form of an envelope marked by the war authorities "salvaged from the sea". It was the original container of a letter sent by Reg to his mother in England some time ago, and which had gone down with other mail and been later rescued and forwarded.

Mr. Lorne Chrysler, who recently came to the bank staff here, left on Saturday last for Medicine Hat where he has entered the aircraft mechanic school "for the duration".

Mr. Ted Carrier, who was relieving during bank holidays at Chauvin, is now away on annual vacation.

Folks are asking, "Who was the business man who was so tired last week end that he slept from 10 p.m. Saturday until 5 a.m. Monday? Some Rip Van Winkle?"

After a month's holiday in search of renewed health Mr. and Mrs. C. McBride returned home here on Saturday last and Mr. McBride has now resumed his managerial duties at the Bank of Montreal.

Miss Marion Clark is here from her home in the city to visit for a week or two with the Misses C. and A. Wyllie.

On a visit to her mother, Miss Betty Shearer arrived from Calgary on Saturday last for a holiday period.

The Cockshutt blower factory expert, Mr. G. B. Morris, from Smith's Blower Co., was in town last week end with Guy Torg, and gave quite a demonstration on this machine.

Mr. and Mrs. Jack Davison, accompanied by Mrs. B. Davison, left on Sunday for a two-week vacation at Jasper and Banff. On their return they are to occupy the house recently vacated by Mrs. Beaulieu on Third Avenue east.

June and Ivan Jackson, of Green-shield, spent the week end at the cottage at Bytown Lake as guests of the Lane family.

Miss Wilson, of Peace River, arrived last week to spend a holiday with her sister, Mrs. Kessink, in town.

***If you own a car you can buy an insurance policy that will pay all your doctor's bills and hospital and nursing expenses for yourself, your family and your guests if injured in a car accident. One year cost only \$5.00. See Joe Welch for insurance.

COMING EVENTS

A Home Cooking Sale and Afternoon Tea will be held in the L.O.O.F. Hall under the auspices of the L.O.L. and L.O.B.A. on Saturday, August 24th, from 3 to 6 p.m. Proceeds are in aid of the local Red Cross branch and all are welcome and invited.

NOTICE

TO WHOM IT MAY CONCERN:

My wife, Katie Milner, having refused to live with me at my home in Geraldton, Ontario, I will not be responsible for any debts incurred by her from this date.

MAURICE MILNER.
July 31st, 1940.

FRUIT SHOWERS GIVEN FOR YOUNG BRIDE

In honor of Mrs. Austin Kinghorn, a recent bride, a pleasant time was spent socially when Miss Marcelle Plater entertained at the home of her parents, Mr. and Mrs. A. Plater, on Wednesday afternoon last.

About 30 guests were present and numerous games and contests helped to fill in the entertainment. Later the young bride was made the recipient of many jars of fruit. Mrs. Kinghorn very graciously thanked her friends for their thoughtfulness and all the good wishes extended to her for her future happiness.

The pleasant afternoon drew to a close with the serving of a dainty lunch by the hostess.

***Renew your subscription to The Star and get a War Savings Stamp FREE. A stamp is donated with every year paid for!

Although the names are available for other centres, up to date we have been unable to get the names of those who will act as deputy registrars for the National Registration for the Wainwright district later this month.

Mr. Ernie Davis, one of Wainwright's "originals" was in town on Monday in the interests of the Edmonton Journal. He enjoyed reminiscing with some of the old timers.

Mr. Frank McLeod left last week end for a holiday at the coast for a couple of weeks.

The working models which are being made for the Gold Standard Refinery are coming along in great shape and will soon be on display in the former buffalo case on the C.N. depot platform.

Don't miss the big show "The Lion Has Wings" which will come to the Elitte this week end. It is a war epic and should attract a full house for every show. It has been passed by the British censor and depicts the big struggle in Europe as no other picture does.

Mr. and Mrs. Bill Fish (nee Irene Lesimore) moved to their new home at Viking on Saturday last.

Mr. and Mrs. Harold Taylor and family spent a few days up at Cold Lake last week end and returned with some splendid funny specimens they were lucky enough to catch there.

Any members of the Rebekah Degree L.O.O.F. wishing to join the lodge basket picnic this (Wednesday) afternoon at Clear Lake are asked to phone 45 before noon so that transportation can be arranged for them if necessary.

Mrs. M. A. Ferras and family and Mr. and Mrs. Leduc motored to the city on Sunday last, returning on Monday.

Mr. Herb Wilson, of the Federal Building staff, is taking his holidays in Edmonton this week. Bill Shaw is deputising for him during the absence.

Our farmers are now truly busy getting things in shape to "get into the big crop". And binders and machinery are being taken out in big numbers.

***Lumber is getting scarce. The government is using large quantities for military purposes, and large amounts will be required for grain storage. Skilled labor is becoming scarcer—all of which means that your buildings will cost more to replace. Lock over your insurance policies and get an expert valuation of your property from Joe Welch, who can arrange additional insurance so that you can collect in case of loss.
